#### **ITEM 6** vote on host nation for 2025 FCWC

Two proposals were received to host the 2025 FCWC, one from NRA-Ireland and one from NRA-UK.

The FCC voted as follows:

ROI bid, 3 votes in favour (IE, AU, US)

UK bid, 5 votes in favor (CA, UK, UA, DE, SI)

## ITEM 7 next F-Class Committee Chairman

Jannie Els was elected as the new FCC chairman. Voting in favour were CA UK US UA DE and SI. No other votes were cast.

## ITEM 8 Varia

- Electronic target shot delay. A discussion was held.
  - US wants a 12s delay
  - CA wants a 12s-20s delay
  - Ray Gross (US observer) commented that no shot information should be shown during the delay period (in reference to experience from the 2016 US FCNC matches fired on SMT e-targets, in which a 7s delay was used but the shot VALUE was immediately known to the shooter)
- A discussion was held on buttplates. Little progress was made, it was felt to be not particularly relevant to F-Class. Since an accepted and common technique is to fire "free recoil" without any shoulder contact at all, F-Class would prefer to avoid mentioning details of buttplates.
- It was agreed to have a discussion on adding non-voting observers to the F-Class Committee (for example to ensure that both FTR and FOpen viewpoints are fully understood)
- Rick Jensen US would like an FTR "Rutland" trophy (FC8.5) to be arranged
- Scott Bissett CA also wants Under-25 trophies to be arranged
- Rick Jensen US wants the match conditions to be reworded, to add in that it is a WORLD CHAMPIONSHIP
- JANNIE ELS will follow up on IRRG proposal #3, to give members more time to provide feedback.
- There was a discussion on wireless headsets. No one was opposed.
- The format of the FCWC was discussed. It was **PROPOSED** to make mandatory an individual and/or team practice day prior to the FCWC. This proposal was **PASSED**.
- It was **PROPOSED** and **PASSED** that for pair firing the 45s shot time limit rule will apply to equipment failure/breakdown, where first offense is a warning, second offense a 2 point penalty, etc. The intent was to prevent a shooter from "manufacturing" an apparent equipment failure in order to gain the ability to string fire.
- A discussion was held on the appropriate relationship of F-Class shooting to the ICFRA organizational structure. It was agreed that the ICFRA Executive would be approached to create standing orders for F-Class. The goal is to have the ICFRA F-Class Committee not be subject to override by any other council or group.
- It was agreed that for pairs firing, no string shooting was to be allowed. It was agreed that further discussion toward a more workable permanent solution is needed, e.g. shooting in threes, or enforcing a 45s delay/pacing, etc.

## Adjournment

The meeting was adjourned at 15:52
